III. **Toledo Waterways Initiative (TWI)** - Status of Implementation of CSO
Nine Minimum Controls and Long Term Control Plan

Regarding implementation of the CSO Nine Minimum Controls and the Long Term Control Plan (LTCP), the TWI construction program is 100% complete. All 166 Consent Decree Milestones have been met and construction is complete for all LTCP projects as of August 31, 2020. The City has submitted to USEPA a work plan for the 12-month Post Construction Monitoring period as required by Chapter 15 of the LTCP and are awaiting approval to begin the monitoring period.
